

Hello my Name is Don Keltner and I would like to be considered for the open position on the Board of Trustees of our Insurance Fund.

I started in the Fire Department in 1979 and worked 28 years as a Firefighter Paramedic, retiring from Palm Beach County Fire Rescue in 2007. My Wife Nancy and I still live in Palm Beach County and have 2 children and 4 grandchildren and we all live on the same street.

During this time I served as the Membership Services Director for Local 2928 for 9 years. I was a Backup Flight Medic on the Trauma Hawk, and I also held positions on Fire rescue committees, ALS Protocols, Medical documentations.

I was one of the original board members of the Retire Insurance Supplement Committee, from the start of the process through implementation of fund and payments, and investment of yearly funds. A benefit that we all will benefit from at retirement, if not doing so now.

I am very pleased with our insurance fund, our clinic,our Doctors,Practitioners, Nurses,Medical Assistants, Office Staff,and Administration, and Administrative Staff.

Being on this board is a commitment that I am willing to devote time to for all members now and in the future.I want to be your voice as a trustee on this board for future generations to our members and their families.

The reason I'm interested in this position is to help our clinic continue, and grow for everyone to enjoy in the future.

Please Vote for me to be your voice on this Board.
